

# INFORMATION SECURITY-AS-A-SERVICE™

PROTECT YOUR NETWORK & SENSITIVE INFORMATION FROM BEING BREACHED

## ADDRESSING YOUR CHALLENGES

Our analysts and systems identify the following information security threats to your organization:

### Observed on Company Systems:

- Malware hosting/distribution
- Virus/botnet infection
- Command-and-Control (C2) activity
- Malicious/Scanning behavior
- Hosting phishing activity
- Ransomware
- Sending Spam
- Question use: proxy, Tor node, etc.

### Observed on Open Source:

- Compromised company account credentials
- Suspicious domain registration
- Phishing and spoof sites
- Sensitive/Confidential/IUO document & information disclosure
- Search for sensitive data
- Discussion by known threat actors
- Discussions/threats in the Dark Web, Hacker Forums, IRC, etc.
- Data breach announcement

## WHAT IS LOOKINGGLASS™ INFORMATION SECURITY-AS-A-SERVICE?

A completely outsourced way to protect your organization's network and sensitive data – all while minimizing overhead and reserving your staff for mission-critical tasks.

Our systems and team of security experts continuously monitor the surface, social, and Deep and Dark Web to find these threats, as a managed service.

### WHY?

By 2020, the average cost of a data breach is expected to reach more than \$150M.<sup>1</sup> Organizations are struggling to keep up with the growing risk of malware, ransomware, and data breaches. You need a solution that steps up your security game all while containing investment and operational costs.

Leverage LookingGlass' 20+ years of industry experience and millions invested in our robust and scalable collection, analysis, and response capabilities. We'll have your security operations up-and-running within a few hours versus a few weeks.

## ADDITIONAL FEATURES

- Granular incidents delivered via portal and API
- Monthly summary
- On-Demand Investigation & Analysis™ Analyst **(additional cost)**
- Response and Mitigation Services **(additional cost)**

<sup>1</sup> <https://www.cybintsolutions.com/cyber-security-facts-stats/>

The “as-a-Service” market is estimated to be worth more than eight billion by 2020.<sup>2</sup> What’s causing the rise in popularity? Companies trying to stay ahead of cyber threats before they become a business liability, all while balancing overworked and understaffed teams.

## WHY GO “AS-A-SERVICE”?

### One Stop Shop

Save yourself the hassle and frustration of coordinating with different companies for collection, analysis, and mitigation. Instead, streamline the process and fight your threats from start to finish with the same team, so you can rest assured that all of your issues are handled swiftly and with the same skill and importance.

### Minimize Costs

Skip the costly steps of hiring more staff or building/replacing infrastructure. Buying vs. building means lower initial costs.

### Quick & Easy Deployment

Why labor for years over building an expensive security program when you can have it all in a matter of days? Going “as-a-Service” simplifies deployment, delivering what you need faster than doing it yourself.

### Trained Cyber Experts

By 2019 there will be nearly two million unfilled cybersecurity positions.<sup>3</sup> Fill the gaps in your headcount by partnering with an organization that gives you access to fully-trained, industry experts so your staff can use their valuable time to focus on your most important security demands.

## ABOUT LOOKINGGLASS CYBER SOLUTIONS

LookingGlass delivers unified threat protection against sophisticated cyber attacks for global enterprises and government agencies. Its comprehensive portfolio of managed services, threat platforms, machine-readable feeds, and automated threat response products – all supported by a global team of intelligence analysts – provides unprecedented visibility, response, and management of digital business risks. Prioritized, timely, and relevant cyber threat intelligence insights enable

customers to take action across the different stages of the attack life cycle. Organizations of any size and level of security operations maturity leverage our 20+ years of tradecraft and investment in scalable, innovative solutions to protect their most valuable assets – brand, employees, customers, networks, and facilities.
