

# PHYSICAL SECURITY MONITORING-AS-A-SERVICE™

SAFEGUARD EMPLOYEES, LEADERSHIP, AND PHYSICAL FACILITIES

## ADDRESSING YOUR CHALLENGES

Our analysts identify and can remove the following threats to your employees, executives, and facilities:

- Physical protests/disruptive activity
- Posted threats
- Reports of accidents or incidents
- Impostor Twitter accounts
- Unauthorized domain name registration
- Posting of doxed material
- Compromised account credentials
- Boycott activity
- Adversarial campaigns/petitions, and more

## ADDITIONAL FEATURES

- Incidents at time-of-discovery
- Monthly summary
- On-Demand Investigation & Analysis™ Analyst (**additional cost**)
- Response and Mitigation Services (**additional cost**)

## WHAT IS LOOKINGGLASS™ PHYSICAL SECURITY MONITORING-AS-A-SERVICE?

A completely outsourced way of online monitoring for risks to your organization's most valuable physical assets – all while minimizing overhead and reserving your staff for mission-critical tasks.

Our systems and team of security experts scan the surface, social, and Deep and Dark Web to identify online chatter that could manifest in the physical world to harm your employees, executives, and corporate facilities.

## WHY?

The convergence of the cyber and physical worlds has made the work of physical security teams on the ground infinitely harder. The unprecedented transparency, immediacy, and high-volume of information available online - especially on social media - can expose employees, executives, and corporate facilities to potential harm from stalkers, hacktivists, and other adversaries.

Make fighting these threats easier by having cyber threat intelligence experts do it for you. Leverage LookingGlass' 20+ years of industry experience and millions invested in our robust and scalable collection, analysis, and response capabilities. We'll have your security operations up-and-running within a few hours versus a few weeks (or years).

The “as-a-Service” market is estimated to be worth more than eight billion by 2020.<sup>1</sup> What’s causing the rise in popularity? Companies trying to stay ahead of cyber threats before they become a business liability, all while balancing overworked and understaffed teams.

## WHY GO “AS-A-SERVICE”?

---

### **One Stop Shop**

Save yourself the hassle and frustration of coordinating with different companies for collection, analysis, and mitigation. Instead, streamline the process and fight your threats from start to finish with the same team, so you can rest assured that all of your issues are handled swiftly and with the same skill and importance.

### **Minimize Costs**

Skip the costly steps of hiring more staff or building/replacing infrastructure. Buying vs. building means lower initial costs.

### **Quick & Easy Deployment**

Why labor for years over building an expensive security program when you can have it all in a matter of days? Going “as-a-Service” simplifies deployment, delivering what you need faster than doing it yourself.

### **Trained Cyber Experts**

By 2019 there will be nearly two million unfilled cybersecurity positions.<sup>2</sup> Fill the gaps in your headcount by partnering with an organization that gives you access to fully-trained, industry experts so your staff can use their valuable time to focus on your most important security demands.

## ABOUT LOOKINGGLASS CYBER SOLUTIONS

---

LookingGlass delivers unified threat protection against sophisticated cyber attacks for global enterprises and government agencies. Its comprehensive portfolio of managed services, threat platforms, machine-readable feeds, and automated threat response products – all supported by a global team of intelligence analysts – provides unprecedented visibility, response, and management of digital business risks. Prioritized, timely, and relevant cyber threat intelligence insights enable

customers to take action across the different stages of the attack life cycle. Organizations of any size and level of security operations maturity leverage our 20+ years of tradecraft and investment in scalable, innovative solutions to protect their most valuable assets – brand, employees, customers, networks, and facilities.
