

LOOKINGGLASS

# CYBER SAFETY AWARENESS TRAINING

## Reduce Your Risk of Insider Threats

### Award-Winning Education Program

#### **Core Cyber Safety Awareness Training:**

Trains employees about 12 critical security awareness topics quickly, economically, and effectively. Lessons include:

- Intro to Security Awareness
- Computer Security
- Email Security
- Reporting Incidents
- Passwords
- Office Security
- Phishing
- Social Networking
- Web Security
- Public WiFi
- Mobile Security
- Information Protection

#### **Advanced Cyber Safety Awareness Training:**

Addresses other challenging security issues employees face with a follow-on curriculum of these nine lessons:

- Social Engineering
- Data Loss Prevention (DLP)
- Safe Disposal
- Internet of Things (IoT)
- Cloud Security
- Privacy
- Working Remotely
- Travel Security
- Insider Threat

LookingGlass Cyber Safety Awareness Training is an award-winning education program designed to help your employees, executives, and even vendors identify and reduce cyber risks to your organization. Through computer-based training, your employees will learn about some of the most dangerous Internet threats, such as phishing, ransomware, and social engineering, as well as practical tools and tactics to proactively protect against them. This knowledge will decrease the risk of the “insider threat” and high costs associated with incident remediation, and help meet compliance requirements for employee education.

Cyber Safety Awareness Training emphasizes user interaction, which allows for learning retention, and dramatically decreases the cost associated with re-teaching concepts or even worse, a data breach from user error.

Using a “You are the target AND the defense” approach, users learn the fundamentals of cyber safety and see real-world examples of today’s cyber threats and how to combat them to protect themselves and the organization’s network.

Choose from two security awareness training programs designed to meet your needs. Additional courses are available as single modules on a range of topics such as phishing, password protection, and PII protection, to only name a few.

## FREE TRIAL OFFER

Contact us to receive a 14-day trial to see how our Cyber Safety Awareness Training can protect your employees and your organization.

#### **FREE TRIAL INCLUDES:**

- Complete access to all training content
- A free, personalized demo by request
- Free technical support
- No obligation or credit card required

FEATURES	BENEFITS
Expert Advice & Content	<ul style="list-style-type: none"> <li>Learn from LookingGlass cyber intelligence experts with more than 20+ years of industry experience</li> <li>Easily identify future cyber attacks by learning from real-world examples</li> </ul>
Measurable ROI	<ul style="list-style-type: none"> <li>Reduce remediation costs</li> <li>Maximize employee productivity by an average of 20% by reducing malware and other IT security issues on employee computers</li> <li>Reduce clicking on malicious links by up to 50%</li> </ul>
Flexible and Customizable Deployment	<ul style="list-style-type: none"> <li>Can be hosted on your Learning Management System or online</li> <li>Get up and running in less time than it takes to get the PO processed</li> </ul>

**PROVEN RESULTS**

Our customers have seen up to a 50% reduction in the number of employees that clicked on malicious links after going through training. As part of training, students receive a course guide, cyber tips for home and work, a cyber safety checklist, and links to online tools.

## ABOUT LOOKINGGLASS CYBER SOLUTIONS

LookingGlass Cyber Solutions delivers unified threat protection against sophisticated cyber attacks to global enterprises and government agencies by operationalizing threat intelligence across its end-to-end portfolio. Scalable threat intelligence platforms and network-based threat response products consume our machine-readable data feeds to provide comprehensive threat-driven security. Augmenting the solutions portfolio is a worldwide team

of security analysts who continuously enrich our data feeds and provide customers unprecedented understanding and response capability into cyber, physical, and third party risks. Prioritized, relevant, and timely insights enable customers to take action on threat intelligence across the different stages of the attack life cycle.
