CONTROL YOUR DIGITAL BUSINESS RISK

UNRIVALED VISIBILITY INTO THE THREAT LANDSCAPE
HIGH-QUALITY DATA TAILORED TO MEET YOUR ORGANIZATION’S DIGITAL BUSINESS RISKS & REQUIREMENTS.

LookingGlass Automated Data Services™ combine open source collection across the surface, social, and Deep and Dark Web to deliver real-time and relevant threat indicators against dynamic threats and static attack vectors.

Technical Threat Indicators™ (TTI) have 99.9% historical accuracy with over 5 billion infection records, millions of malicious URLs, and the broadest coverage of global Advanced Persistent Threats (APTs).

- Phishing URLs
- Malicious URLs
- Infection Records
- Malicious C2 Domains
- Newly-Registered Domains

Compromised Credential Information™ (CCI) provides monitoring and look-up of leaked Personally Identifiable Information (PII), including the latest compromised account credentials, credit card numbers, and Social Security Numbers.

Strategic Intelligence Subscription Services (STRATISS™) is an annual subscription service delivering finished intelligence for planning, context & correlation, and operations.

On-Demand Investigation & Analysis™: Highly-skilled cyber intelligence analysts provide deep-dive reports, web-based searches, and executive assessments across 11 discrete categories.

Why LookingGlass Cyber Threat Intelligence?

- Fewer false positives
- Flexible consumption and integration
- Timely, relevant, and actionable security incidents
Third Party Risk Monitoring: A cost-effective, risk-focused approach to managing and mitigating your third party cyber risk.

- Continuous visibility into third party vulnerabilities with real-time alerts
- Human-vetting & analysis of data prior to delivery
- Scales to meet your growing list of vendors

Threat Intelligence-as-a-Service™ identifies and protects your business from nearly 40 threats types found in the surface, social, Deep and Dark Web, as well as online indicators of compromise.

- Brand Security-as-a-Service™: Protect your organization's brand and credibility from logo/trademark abuse and misuse, social media impersonation, rogue applications, and phishing websites.
- Physical Security Monitoring-as-a-Service™: Safeguard employees, executives, and corporate facilities by monitoring for malicious online chatter that could manifest in the physical world.

Complement your "as-a-Service" package with our Response & Mitigation services, providing rapid response to eliminate these threats.

Why Our Managed Threat Services?

- Leverage our deep roots & expertise as an extension of your team
- 24/7/365 coverage
- Streamline processes and minimize OpEx and CapEx
POWERFUL PLATFORMS PROVIDING AN OUTSIDE-IN VIEW OF YOUR ORGANIZATION'S SECURITY.

Why LookingGlass Threat Platforms?

- Proactive cybersecurity posture
- Understand your adversary’s motives
- See your organization’s vulnerabilities through the lens of a threat actor

Scout Threat™

A Threat Intelligence Platform (TIP) developed by intelligence analysts with built-in security tools to amplify analyst tradecraft. These tools help analysts identify the highest priority threats to an organization using threat modeling, gap analysis, and risk scoring.

Scout Prime™

Gain a holistic view of the external threat landscape to determine how threats impact your security posture. This cyber situational awareness platform maps the Internet, overlays it with indicators of compromise, and delivers notifications of a host of vulnerabilities including open ports and improperly configured or expired certifications.

Advanced Threat Indicator Confidence™ (TIC) scoring through Scout Prime’s customizable dashboard.
OPERATIONALIZE THREAT INTELLIGENCE AND AUTOMATE DEFENSE.

Why Our Threat Mitigation Services?

- Stealth network presence protecting applications from commodity exploit by cyber criminals
- Real-time advanced threat response
- Maintain uptime and business continuity

**ScoutShield™**
High-security, zero-touch threat intelligence gateway designed to augment your firewalls. This appliance fends off known bad phishing URLs, malicious URLs, and malicious C2 domains.

**IRD-100™**
Programmable network appliance enabling rapid responses to emerging threats and changing network conditions. This high-performance hardware delivers innovative manipulation of malware attacks and network traffic tagging in stealth mode.

Cyber Safety Awareness Training

Award-winning education program training employees and vendors on the fundamentals of cyber safety. We offer two programs that cover a wide range of topics commonly associated with cyber attacks and data breaches.
ABOUT LOOKINGGLASS

LookingGlass delivers unified threat protection against sophisticated cyber attacks for global enterprises and government agencies. Its comprehensive portfolio of managed services, threat platforms, machine-readable feeds, and automated threat response products – all supported by a global team of intelligence analysts – provides unprecedented visibility, response, and management of digital business risks. Prioritized, timely, and relevant cyber threat intelligence insights enable customers to take action across the different stages of the attack life cycle. Organizations of any size and level of security operations maturity leverage our 20+ years of tradecraft and investment in scalable, innovative solutions to protect their most valuable assets – brand, employees, customers, networks, and facilities.
